ABOUT

As a CTO, Board Member and R&D leader, I bring 25 years of industry experience and 15+ years in leadership, managing technology organisations, building digital transformation architectures and helping organisations prepare for the future. Across more than 160 projects spanning defence to healthcare, I have treated technology as a tool and people as the centre of every decision. This people-first leadership approach contributed to Great Place to Work® certification for the organisation where I served.

EXPERIENCE

2026 — Present

Corporate Technology Investor & Strategic Advisor

geoni.ai · Generative Engine Optimization · Ankara

Invested in geoni.ai as a corporate technology investor and strategic advisor. The platform helps brands be accurately and visibly represented by AI search engines such as ChatGPT, Perplexity, Claude and Gemini.
